

“There is nothing like a dream to create the future” French Author, Victor Hugo said that.

Warman is the town that has this right! We have balanced town culture; with city amenities. I believe we have an opportunity to continue building on this notion. There is opportunity here; dreams to be realized!

Three years ago, I aspired to be councillor. I asked for the opportunity to give back to the community. With that opportunity, I have remained consistent in my methods of analysis and support for all proposals coming to council.

Along with my commitment to council comes a duty to volunteer. I have assisted with raising funds and donating time to support community events, community infrastructure and private business. From hockey drafts, to Kid Sport to Camp Day; I have volunteered time and effort to the projects that our community supports and values!

Furthermore, I have extended my role and influence from a local library level to a regional and provincial level. I serve on our local library board, I have been elected to the Wheatland Executive Board representing all 46 branches and ### communities in Wheatland’s regional district. Also, I have been elected to be Wheatland’s Regional Representative to the SLTA which represents all libraries in Saskatchewan. The SLTA directly lobbies the Minister of Education for resources and works to raise the profile of libraries at all levels within Saskatchewan.

I have taken on additional public roles by having the opportunity to speak to the Great Plains College 2012 graduating class and to represent Warman’s waste collection practices to the Waste Reduction Council as a guest speaker. I relish in the opportunities to promote Warman as a responsible, progressive community.

Now is the time to consider new goals and dreams for the future. Upon re-election, I remain committed to the role of councillor, volunteer and guest speaker to forward and highlight your interests. I seek to uphold the standards, policy and accountability displayed in my first term while adding focus on a new Warman RCMP detachment building, library branch revitalization and development of a Warman Business Association or Warman Chamber of Commerce.

Support for the Warman RCMP detachment re-affirms my commitment and support for safety and security for all Warman residents. Our safety and security is paramount to the balance of town living in a city environment. Infrastructure investment **now!**, gives our RCMP the tools and support to be more effective with enforcement as Warman continues to grow.

My support for the revitalization of the Warman Wheatland Library emphasises the need and importance of library programming and life-long learning opportunities for all ages. It is important to realize our library should be a hub of knowledge and a gathering point to express and formulate new ideas in a rapidly evolving world.

Development of a Warman Business Association or Chamber of Commerce serves as an organization to highlight and strengthen Warman's economic position. My goal is to encourage, fortify and retain business interests at a local level.

On October 24, 2012, I ask for your vote and continued support as councillor.
