

Re-elect:

Richard Beck

For Councillor on October 24th, 2012

I'm proud of Warman and our achievements as a community during my first term on Council! Support my bid for re-election!

I'm committed to:

- Infrastructure investment and maintenance for our police, fire protection services and utilities.
- Revitalization of our library with a renewed focus on programming and lifelong learning initiatives.
- Strengthening our local economic opportunities, local employment options, and promoting our economic value as a regional hub.
- Holding the line on Property Tax increases through prudent spending habits.
- Strengthening communication between council and residents.

Efforts & successes from my first term include:

- Support and opening of our WSCV, (renamed the Legends Centre)
- Middle Years School
- HWY 305 revitalization & re-alignment
- Support funding for large utilities projects to foster Warman's growth.
- responsible budgeting and focus on minimizing tax burden

I decide support for **all** proposals during my term based on the following:

What is the benefit or improvement? Who will this help? What is the cost or cost savings? Is this a safety issue, service requirement or investment opportunity? What resources are required to complete the request? Do we have the resources to complete the request? **Is approval the best course of action?**

I'm committed to Warman and our growth and security of the place we each call home!

Please support my bid for re-election on October 24th, 2012!
